Des Moines, IA 50313

Dear Mr. Newman:

Re: Accumulation Time Extension for
A-TEC Recycling, Inc.
Des Moines, Iowa
EPA RCRA ID No. IA0000109827

This is in response to your December 14, 1994 inquiry in which you requested a thirty (30) day extension to the two hundred seventy (270) day on site accumulation period allowed for generators of hazardous waste, as specified in Title 40 Code of Federal Regulations (CFR) § 262.34. It is our understanding that this extension request pertains to 3 drums of D009 hazardous waste for which the 270-day time period expires on January 7, 1995. You indicated that the extension is needed because Bethlehem Apparatus Company, Inc. is unable to accept anymore shipments in the month of January 1995.

The U. S. Environmental Protection Agency (EPA) hereby grants the thirty (30) day extension to A-TEC Recycling, Inc. for these drums of waste. No further extensions regarding these containers can be granted. Therefore, A-TEC Recycling, Inc. must ensure its off-site transportation for proper treatment and/or disposal before February 6, 1995. Should you fail to meet this deadline, you must notify this office in writing of that fact immediately.

Section 3007 of the Resource Conservation and Recovery Act (RCRA), 42 USC Section 6927, allows the EPA to request certain information for the purposes of determining compliance with the
